

## **Freelance FLASH / Illustrator and/or ASP / PHP Web Developer**

Number of positions: 1  
Location: Brisbane, Australia  
Type of Role: Freelance  
Start date: ASAP

Oniqua is a world leader in Asset Performance Management software and services. Oniqua provides solutions to large, blue-chip, asset intensive enterprises around the world. These solutions rapidly and sustainably deliver improved asset performance by focusing on enhancing plant maintenance, inventory management, procurement and master data functions.

This is a freelance role with the flexibility of working from home and from our office on a Tuesday/Wednesday when required. While a great deal on the corporate graphic art is performed in-house, the workload now requires some of this element to be outsourced.

### **Role Description**

- Animation and illustration of software processes
- FLASH for presentations and web site enhancements
- Adobe Illustrator / Photoshop / Fireworks for Brochure Design
- ASP / PHP for website maintenance and dynamic database integration
- HTML / CSS for web site maintenance

### **Selection Criteria - Primary**

- Experience essential
- Attention to detail and diligence
- Ability to work independently and as part of a team
- Mature approach
- Excellent organizational and prioritizing skills
- Portfolio/samples of design work essential.

### **Selection Criteria - Desirable**

- Experience with an IT or professional services organization
- Sound understanding of relevant business processes
